

Testimonials from Parents - Why would you recommend Axcel International School

** Disclaimer: "Kindly excuse the grammar or typo errors as the comments were originally from parents feedback form done online during the MCO period."*

As parents, we always hope to give the best to our children. Choosing a good school is one such decision and we think we've made the right choice for Bryan. Formerly known as Axcel Campus and now upgraded to Axcel International School is a proven achievement that has given us more confidence in the school. Axcel truly upholds its tagline in preparing my son to focus not just on academics but also the importance of character building and how one can contribute back to the community. The holistic curriculum has allowed him to discover his own potential skills and we believe he has gained better knowledge from real life experiences shared by successful mentors during Axcel programmes.

We would also like to thank and applaud the tremendous efforts done by the passionate and dedicated principals and teachers during MCO which includes not only online classes but even online exams not just to assess student's understanding of the lessons learned but also to test their honesty and reinforce the values of integrity. What we like best was the school's initiatives in many more activities beyond classroom subjects. Axcel has definitely shown how an organized and structured school should be with great planning ahead in any circumstances.

Axcel International focuses on the child rather than pure academics. I could see big changes in Christopher even though he came from other international schools, he is more driven, more motivated and participates more actively. The Axcel programme is one of the key pull factors for me. I could see a sense of discipline and values in Christopher in just a few months.

Compared to other school, Axcel is also amongst the fastest to adapt to changes, for example, during the MCO, they have resumed classes within a few weeks and even had the ability to conduct exams online. This shows the type of commitment and flexibility that teachers have to ever changing environments.

Dedicated teachers with great study environment, shown efforts to provide a proper and effective curriculum even though during MCO

The owner and management are very committed to the well-being of the students, very experienced principal, and owner is hands-on and teaching at the school, unlike some other bigger international schools, with management primarily concerned with bottom line. They are also very responsive to student and parents feedback

Definitely, the commitment and quick adaptation of the teaching staff to implement full online teaching during the MCO period is impressive and admirable. I keep telling friends and relatives about Axcel and encourage them to enroll kids at Axcel

I choose Axcel for my son to learn here because they provide extra practical life skills eg. Financial skill, public speaking, daily interest projects which is important for current and future use in life.

Teacher nice

Well organised

Small class n hv talk n program ready kids to society

As a parent, I feel that Axcel tutors are committed, responsible and effective in teaching.

They are able to foster my children's intellectual and emotional growth while helping them to develop the right attitude, acquire skills and gain knowledge.

The new campus is able to provide a bigger and more complete school environment.

Dedicated teachers and future relevant extra-curricular programmes. Regular feedback to parents are also welcomed.

Good environment for kids learning.

Dedication and the culture. Those were the first things that captured my attention when they first opened up. At the Open Day, I was quite sure that this is the school that my kids will go to. After having to wait for 2 years, I signed my children up once they passed the admission test. Their values and lessons planned out are great. My children blended in quite well. Coming from a Chinese school background, the teachers were patient. They caught up to the lessons rather well and they enjoyed going to school. Even at the first announcement of MCO, the school reacted very fast to the situation. Lessons continued with clear communications sent out. Soon lessons resumed at its regular schedule and I am very pleasantly surprised with the fast restoration to order. The dedication of the teachers and the school was awesome even when I compared to other International schools out there. Thank you for all the hard work, dedication and patience from everyone in handling the situation and the children. It was not easy to get to where we are now. Kudos to all! This is a school that I did not regret choosing and would recommend to all who are looking for a place that aims to grow values and skills in children of today.

Focus on students character

除了书本上的教学, Axcel也注重课本外的教学, 如Team Building, Entrepreneur day等, 并且让每个同学参与。培养学生自信心, 与别人沟通和工作的技巧。至于课本上的教学除了笔试, 还有让同学完成的 assignment, 有些很有趣, 让学生有兴趣学习。老师花时间了解每一位学生, 引导和鼓励学生。老师给予学生很多发挥空间不, 让学生有更多的想象力和发挥的空间。

Classes taught in a variety of ways including learning activities, story telling, poems, role play, social media, educational games, public speaking ,presentation skills etc .

During MCO period still can study via on line

School with lots of activities & programs. No a boring school!!! 😊

Reasonable fees

Reasonable fee, passionate teachers, always looking for improvement in term of upgrading learning culture and quality.

Very considerate by reducing the school fees without asking during the MCO suffer time. Thank you.

Prior to start of MCO, Axcel has taken well considered precautionary measures and having contingency plan in place in the situation when a lockdown were to occur. During MCO, Axcel has made impressive arrangement and coordination to ensure online school sessions still continue with minimal interruption. Axcel has shown great flexibility and responsiveness towards the several extension of MCO. Not only able to quickly adapt, but also improvise along the way to close the gaps between online learning with the actual school sessions as much as possible.

My daughter being in Year 8 this year has not missed any school lessons during MCO as it has been 'school as usual' for her. She is well informed by the teachers on how to use Google Classroom and relevant tools to access and learn, and interact with teachers accordingly. It is impressive that the school even able to conduct online exam within 2 weeks right after the start of MCO !

Once again no regret of sending my daughter to Axcel, and have been feeling very pleased during MCO that my daughter is still able to continue leaning.

Well organised

They have a good education and environment

Reliable Management Team and some academic teachers are commendable.

Axcel International School's IGCSE syllabus may be the same as other similar international schools, but the method of educating the students, imparting knowledge both theoretical and practical and inculcating values in them are very effective and desirable by any parent wanting the best possible education system for their children. My son, Ian had attended 2 other international schools previously and Axcel's teaching system and the performance of their academic staff as well as their admin support department has impressed me.

My son ability to grasp his class subjects information that is being taught has improved and he enjoys studying. His performance in his studies has also improved significantly. I would highly recommend Axcel International School to any parent looking for a good and affordable education to invest for a promising future for their children.

Our boy is currently in his 3rd year studying at Axcel International School (AIS), we are happy to see that he is accomplishing well not only in academic, but also able to acquire various type of life skills and attaining good attitude. We are truly appreciate the commitment and passion on striving for 'beyond academic excellence' which been demonstrated by the team of AIS management and teachers. Thank you!

Axcel has shown great enthusiasm into nurturing kids for future endeavours. I appreciate the way Axcel has implemented to guide and stimulate the inner flame of my kids. I have seen effort by the school to create a stronger bonding within teachers and students. The activities and program that were carefully planned, organised and carried out by the school are good models to lead our kids for a better and wider prospect, not only academically but also on social skills and better characteristics. Axcel encourages students to think within and beyond the box at the same time, which creates the opportunity for students to re-ignite their passion for learning. Way to go Axcel! Thank you for the patience and effort.

Price is affordable

I could see a lot of teachers being stressed out during the MCO where trying to engage with students who are not physically present has been a challenge. Yet, they continue to do their best in getting lessons across. Kudos and well done.

Teacher is responsibility & follow up closely with parents.

Teacher very good

Unique programmes and activities from Axcel such as Mentor Sharing, Financial Intelligence can prepare students for the real world.

Axcel has been able to provide good home/school communication by keeping the parents in the loop.

I hope Axcel can maintain the high standards and continue to prepare our children for the future.

Thank you and please keep up your good work!

Axcel teachers have done well with the attention given to students.

Teacher is responsibility & follow up closely with parents.

Done well A great applause to all the teachers who continued to guide and teach the kids even during this tough times. Juggling between home and school at the same vicinity of their own home is never easy. Stay strong teachers!

Wei Yi is no good in communicate with people, he has improve a lot but sometimes still reluctant to speak out especially in class. Hope teacher can encourage him to speak his mind more. Thanks .

On line study keep improve and strengthen their extracurricular reading

Before MOE announced to utilise online tutoring during MCO, Axcel already get prepare and conduct on line class at the first time. The team highly alert really impressed me that they are seriously concern and looking the best solution to maintain students' quality learning. As well certain programme like Life skill and tik tok, are found funny and did help up to reduce students' bored at home and long time facing computer.

Always keep the parent be aware of the students performance & behaviour as sometimes we might miss out at certain part.

Would like to express our greatest appreciation on the relentless efforts put in by the school and teachers during this unprecedented MCO period.

We have the full confidence that Axcel will be able to organise and adjust accordingly to comply with the government SOP when school reopens.

KEEP UP THE GOOD WORK !!!

Axcel International School has done well to maintain the education flow to their students during the Movement Control Order due to the COVID-19 pandemic. My son looks forward eagerly to the daily online classes and his interest in his studies is still well maintained. The Axcel Programme - Life Skills series was an excellent w

During MCO period, AIS has conducted full stream on-line classroom and exam with students in a well organised and effective manner. We hope that students will enjoy the on-line learning in a more creative and attractive ways.

Good

Well organised

Good environment for kids learning.
